# Leicester Square Action Plan Summary

CROSS RIVER  
PARTNERSHIP

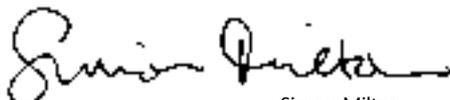

## Introduction

By **Simon Milton**

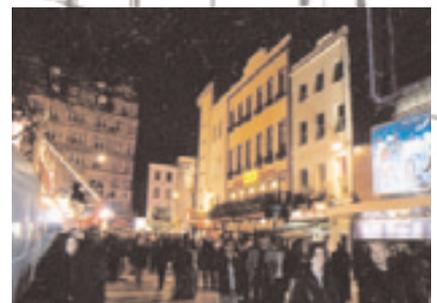

At the heart of one of the busiest world cities, Leicester Square should be a place everyone is proud of. In recent years, the pressures of keeping the Square safe, clean, and attractive have mounted. As part of our Civic Renewal Programme, we have developed the Leicester Square Action Plan, an important step in reclaiming the Square's world class city status.

This Action Plan was developed together with the Leicester Square Association (representing local residents and businesses), the Police, and the Piccadilly Circus Partnership (a voluntary Business Improvement District on the edge of the Square). We consulted you on our plans to improve the Square, and indeed on many questions there was strong support for our approach. As a result of the consultation, Cabinet approved the final action plan. This document is a summary of the action plan, it provides a snapshot of the consultation responses, and on the back page is a timetable with more than 80 specific proposals. I look forward to working with our partners, so that we can once again make Leicester Square the jewel in Westminster's Crown.

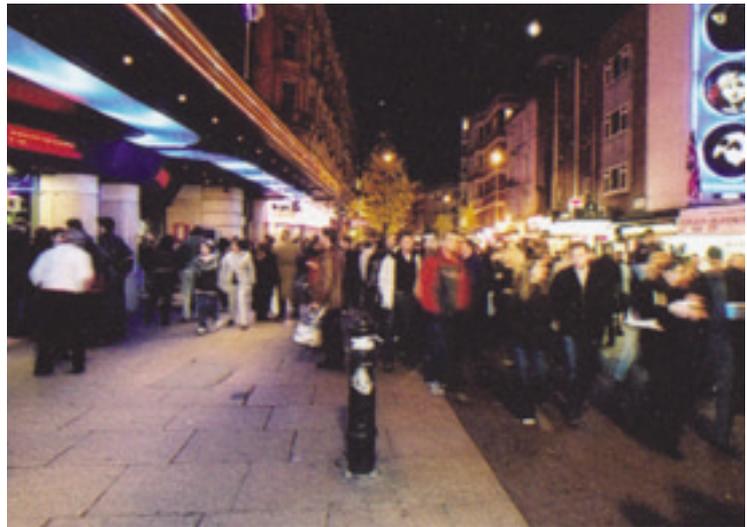

Simon Milton  
Leader of Westminster Council

We have already taken steps to improve the feel of the gardens as they are, including re-turfing worn out grassed areas, restoring the fountain and commencing a programme of cleaning and upgrading the statues and monuments.

**Vision** With 7 cinemas and nearly 50 premieres a year, Leicester Square should be promoted as the home of cinema in Britain. We want to complement this with a family friendly setting and pleasant, well-managed alfresco dining. We will look to use imaginative lighting and public art schemes to make the Square more attractive and entice people down from the busy north terrace. A strong image will be promoted by drawing support from the media and the London Tourist Board.

**Physical Environment** As part of improving the physical environment, we are already reviewing street clutter, and will look to improve pedestrian flow with better signage.

To enhance the feel and safety of an area, lighting is very important and it is at the top of our agenda. General lighting in the Square is being improved and a new scheme of fixing floodlights to properties is being developed. Our new wardens will report any new lighting faults on a daily basis.

The gardens in the centre of the Square are an important part of London's heritage. We have already cleaned and repaired the fountain, returfed the gardens, and pruned the trees. We intend to open the gardens later and make them more attractive and safer by moving the stars' handprints inside and improving the lighting.

With Leicester Square Wardens, a new CCTV system, and changed entry and exit arrangements we aim to do more to control vehicles in the Square.

**Life of the Square** At present, the liveliness in Leicester Square too often occurs by default, as people make their way through, to and from clubs and bars. Our vision for Leicester Square is of a place lively for the right reasons. We will proactively design a programme of special events that fills the Square not only with film premieres, but also with family friendly fairs, festivals and exhibitions.

We will pilot schemes to extend the provision of tables and chairs outside premises, around the gardens, and beyond the current limit of 11 pm. Any extension of current alfresco dining would be in line with the highest standards of safety and cleanliness, and subject to consideration of detailed proposals.

**A Clean and Safe Environment** Leicester Square is a difficult place to keep clean and safe. As part of our Civic Renewal Programme we have already initiated a programme of clearing flyposting and graffiti. We are also providing more litter bins and better cleansing, and will provide wardens 24 hours a day. Through regular patrolling and use of the CCTV system these wardens will keep a watchful eye on noise, litter, faulty lighting or cracked paving, busking or illegal street trading, as well as vehicular access in the Square.

**Management** We already have a multi-disciplinary project group for the West End that has concentrated its activity on Leicester Square. An area manager, who supervises the wardens, will be the face to face contact for residents and businesses in the Square. We will continue our close liaison with the Leicester Square Association, the Metropolitan Police, and the Piccadilly Circus Partnership. With support from the Cross River Partnership, using the London Development Agency's Single Regeneration Budget, we will foster our working relationships with other organisations to achieve a common vision for this London landmark.

**The Next Stage** We are now concentrating on delivering our proposals, and will be meeting regularly with our partners to review progress. If you would like a full copy of the Action Plan, or any other information on Leicester Square, please contact the West End Team on 020 7641 2261 or email [leicestersquare@westminster.gov.uk](mailto:leicestersquare@westminster.gov.uk)

## Responses to the consultation, February – March 2002

We delivered questionnaires to all residents and businesses within a half a mile radius of the Square and to many stakeholder organisations. We received over 300 written responses and in addition held 13 meetings with various local groups. 39% of respondents were residents and 61% were visitors or employees in Westminster.

Here is a summary of the results.
